Summary

Software Engineer with 20+ years of experience building and operating internal tools and hosted services for 1,000+ engineers. Passionate about programming, automation, and developer experience.

Experience

- DevOps → Tech Lead → Engineering Manager → Tech Lead**, Adevinta – Barcelona Aug 2014 – present
- Led and mentored a team of six engineers, then chose to return to a senior individual-contributor track in 2022 to take on a more hands-on technical role.
 - Migrated 800 users and 3,000 repositories to GitHub Actions, modernising the company's CI/CD platform.
 - Designed a service to orchestrate Kubernetes workloads across multiple clusters, reducing operational overhead and accelerating adoption of the internal developer platform.
 - Operated CI/CD services for 1,000+ engineers (Spinnaker – 3,000+ deployments/week · Travis CI – 20,000+ builds/week · Artifactory – 2,500+ Docker pushes/day).
 - Built a scalable mobile CI farm based on Travis CI and VMware that ran 100+ iOS and Android builds daily.
 - Built tooling that facilitated operation of our services and improved the experience for our customers.
 - Participated in on-call rotation, following good incident management practices, conducting post-mortems, customer communications, and running continuous-improvement loops.
 - Contributed features and bug fixes to open-source projects such as [Spinnaker](#), [Travis CI](#), and Netflix's [Eureka](#).
- PHP Developer**, Socialpoint – Barcelona Sept 2013 – Aug 2014
- Developed and maintained back-end features for games with over 6 million daily active users.
- Freelance Software Developer**, Codelearn – Barcelona 2013 – 2017
- Developed several web-based games to teach computational thinking, including a Logo-like programming environment and a [real-time programming competition game](#) based on the Karel programming language.
- Web Developer**, Fluendo – Barcelona Dec 2012 – Sept 2013
- Python and JavaScript Developer**, Vision Robotics – Remote Mar 2012 – Dec 2012
- Tech Lead & Developer**, MyNews – Barcelona Feb 2006 – Mar 2012
- Computer Vision Technician**, Nexpert – Sant Sadurní d'Anoia Apr 2002 – Feb 2006

Education

- BSc** **Universitat Oberta de Catalunya**, Computer Systems Engineering 2006 – 2010
(60 / 240 ECTS completed)
- FP2** **IFP Alt Penedès**, Electrical Automation 1995 – 2000

Technical Skills

- Programming Languages:** Go, Python, Java, JavaScript, C, PHP
- Frameworks:** Flask, Spring, Symfony, Vue, React, SDL
- Cloud & DevOps:** Kubernetes, AWS, Terraform, ArgoCD, GitHub Actions, Grafana, Datadog, CI/CD
- Databases:** PostgreSQL, MySQL, Redis, DynamoDB

Programming Portfolio

- Engine for 2D platform games in C - [amanya/c-2d-game-engine](#)
- Interpreter for the Karel language used in a web PvP game - [amanya/pykarel](#)
- Ideas for a match-three RPG game with a cyberpunk aesthetic - [amanya/circuit-breaker](#)
- Created a demo to teach programming to my daughters - [amanya/particles-course](#)
